## EDUCATION

**Master of Engineering in Information Systems and Technologies**
University of Belgrade,
(2018-2020)

**Bachelor's in Executive Management**
Megatrend University
(2009-2013)

## LANGUAGES

- Serbian – Native
- English - Professional

## HOBBIES

- Football
- Basketball
- Gym
- Rollerblades

## ABOUT ME

Working with React and Next.js, with over 4 years of experience in creating user-friendly and visually appealing interfaces. Frontend development **attracts me** since I like discovering the results of **my effort**. I approach issues by dividing them **into smaller**, more manageable components and constantly considering what is causing them to stop from happening again. **Good preparation is key** for me—I believe that well-planned work is already half done.

## SKILLS

- **Frontend Development:** React, Next.js, TypeScript, JavaScript, HTML, CSS & Sass;
- **UI & Animation:** Tailwind CSS, ShadCN, MaterialUI, Styled-components, Framer Motion, ThreeJS;
- **Backend & Databases:** MongoDB, Mongoose, Convex, Firebase, Hygraph, Strapi;
- **Authentication & Security:** NextAuth, GoogleProvider, Clerk, bcrypt.js, email.js;
- **Tools & Workflow:** React Hook Form, Zod, SWR, Git, Postman, Figma;

## EXPERIENCE

**Frontend Developer | 4 BEES | (mar-sep 2023.) | On-site**

- Redesigned and optimized user interfaces with React and Strapi, **increasing mobile traffic** by 40% and user engagement by 22%,
- Implemented ReactStrap components, **reducing page load** times by 25%, leading to a smoother user experience,
- Introduced a new UI framework with MaterialUI, **boosting user engagement** by 20% and reducing bounce rates by 15%,
- Analyzed Google Analytics data and proposed strategic changes, leading to an 18% **increase in conversion rates**,
- Streamlined the design-to-development process by **leveraging Figma**, reducing turnaround time by 30% and improving development efficiency by 20%.

## PROJECTS

**Kala Hvala**

A web application where users can leave thank-you messages for firefighters, upload images, and view top firefighters showcased in slides.
**Tech stack:** React, JavaScript, MaterialUI, Axios, Framer Motion, React-dropzone, React-responsive-carousel, Use-local-storage-state

**Retail Heroes**

App that allows users to track video progress weekly and earn stickers.
**Tech stack:** React, JavaScript, Jszip, File-saver, Framer Motion

**Saas Application Inspired By Google Docs**

Has user authentication, document storage, live collaborative editing, and enterprise-ready application monitoring and notifications.
**Tech stack:** Next.js, TypeScript, React, Tailwind CSS, ShadCN, Liveblocks, Lexical Editor, Clerk, nanoid, Sentry

**WhatsApp Desktop Clone With AI**

WhatsApp application, that includes classic chat, group chat, video calls, with ChatGPT for advanced queries as well as DALL·E for image generation.
**Tech stack:** Next.js, TypeScript, TailwindCSS, ShadCN, Convex, Clerk, ZegoCloud, Svix, React-hot-toast, React Player, Zustand, Emoji Picker React, OpenAI API, DALL·E
